Experience

Frontend developer – AIPERIA (Jan 2024 - present)

- Maintain multiple web apps for monitoring and updating live data in thousands of bakeries across the EU.
- Scaled the platform to support enterprise customers with 1,000+ stores — up from 150 — by improving the app performance and redesigning the UI to handle high-volume data.
- Integrated an AI-powered chatbot using the OpenAI API, enabling customers to query live database information directly.

Frontend developer – Tink (Jun 2022 - Jan 2024)

- Improved launch time by 70% for new pages, by creating an internal reusable module library.
- Increased our Google Lighthouse accessibility score by 23 points, implementing WCAG standards across all sites.
